SELF PROJECTS

Forbes App Redesign

Sept, 2020

UX/UI Case Study : Re-imagining the UX of the Forbes App. This case study gives a detailed insight into my design process followed to redesign the Forbes app.

HiTi- a cab booking app

August, 2020

An app specifically designed for my home town Dharamshala. It let you choose a driver from a list of all those drivers who have accepted your ride request. Users can also save drivers as "Saved Drivers" to request them again directly.
